Nursing Practice In Multiple Sclerosis: A Core Curriculum June Halper MSN ANP FAAN, Colleen Harris RN MN MSCN, Kathleen Costello RN MS CRNP MSCN

Nursing is a critical element in meeting the needs of people with multiple sclerosis (MS) and their families. Over the years, the role of MS nurses have developed from strictly providing care and education, to also providing case management services, counseling, and rehabilitation. As well-educated professionals they have become knowledgeable of the disease process and available treatments. <>Nursing Practice in Multiple Sclerosis: A Core Curriculum, 2nd Edition was written for nurses preparing to take the MS certification exam given under the auspices of the International Organization of Multiple Sclerosis Nurses (IOMSN), and for everyone involved, or becoming involved, in the field of MS treatment and care. Developed as a companion to *Comprehensive Nursing Care in Multiple Sclerosis, 2nd Edition* and *Advanced Concepts in Multiple Sclerosis Nursing Care*, this guide will help readers learn about the history of MS, its diagnosis, management, and current theories regarding the immunologic basis for the disease.
