This is a photographic journey of discovery. We are going to look for patterns in nature and try to discover the underlying forces that produce them. My goal for this project is to keep it simple, thought provoking and FUN! Take a hike in the woods, visit a National Park or the City Park near your home and have fun discovering these patterns! If you see similar patterns here and there - that's a clue! That's a clue that there are underlying physical principles at work!
