**Principles of Cost-Benefit Analysis for Developing Countries** Caroline L. Dinwiddy, Francis J. Teal

The book presents the theory of cost-benefit analysis and applies this theory to contemporary problems of development economics. It is distinctive in that it combines an introduction to welfare economics and project appraisal with a discussion of current issues in development economics such as structural adjustment policies, commodity stabilization programs and environmental issues. The book assumes a basic economic understanding and should be a useful text and also of interest to public policy administrators.
