Millionaire mindset is tricky, because in the millionaire mind world they are trying to hide the key element from you. Why?

You are considered as a client in the millionaire mind. Why should a millionaire try to be your teacher and show you the way to become a rival?

I guess you agree with me that some millionaires published their knowledge to claim that their knowledge can make you a rich person. I doubt it because I couldn't find the evidence to show me that an employee and unrelated person who never was a business partner with them achieved success and followed through by reading their books. Could you?

That and only that inspired me to get to the bottom of this. I went through all the steps, but without results. Now I found out that they kept the key elements hidden from us, hence the treasure box that they promised you could find was empty. After many years of research I've found the answer. In this book, I translate their opaque language into words that are easy to understand and I illustrate the issues with simple examples in this book. I am sharing my research with you by offering you the correct steps that you can take to get results fast and see changes rapidly.

My research shows that if you can be an asset to a millionaire, they might develop a soft spot for you. In that scenario your help can help them earn more money and they have to give you a piece of that pie. That is a general rule, but be careful: if you give them a chance to squeeze you, they will. A millionaire mindset is not like a real estate agent investing in a property. A millionaire mindset is all about knowing the rules of the game and plays it correctly. In this book you will learn these rules and how to play the game correctly. Any mistakes made during this journey can also push you one step away.

In this book I will reveal Andrew Carnegie's mystery and vision related to Napoleon Hill and his well-known book "Think and grow rich". I will also explain why all these old stories relate to Donald Trump and why all these rich people are saying the same thing over and over again. But wait, that is not all. In this book you can find one of the best maps to a millionaire mindset that can drive your life to success by helping you find the right path. I will reveal the secret hidden from you by persuasion techniques and the most important obstacles and false believes that have been planted in your mind to prevent you seeing the true path to a millionaire mindset. In this book you learn the true foundation of a millionaire mindset and you won't be disappointed like perhaps you did before!
