Abigail has had enough! Losing all patience with her abusive family, this teenage dreamer decides to run away into the forest late one night, since she figures any place is better than home. But can she survive in the wild?

Along the way she meets two wild animals and then a mysterious explorer named Malleus who seems to be hiding his own share of dark secrets. Malleus is a little bit too smart about the wild life, not to mention rough around the edges when it comes to manners. He hasn't lived among civilized people for quite a while and seems to have more in common with the wildlife than humans.

Abigail suspects something's up—especially since Malleus seems to become a different sort of man whenever the full moon rises. Can they find solace in each other or will their troubled pasts keep them apart?
