The Year's Top Short SF Novels 4 Stephen Baxter, Nancy Kress, Alexander Jablovkov, Robert Reed

Short novels are movie length narratives that may well be the perfect length for science fiction stories. This audio collection presents the best-of-the-best short science fiction novels published in 2013 by current and emerging masters of this vibrant form of story-telling. In *Earth I*, by Stephen Baxter, a search among the stars to ferret out the origins of mankind amidst the Xaian normalization digs up many surprises. In *Success*, by Michael Blumlein, a brilliant but erratic biologist studying epigenetics struggles to hang on to his grip on everyday life as he writes his ground-breaking tome. In *Feral Moon*, by Alexander Jablovkov, the Alliance military is invading Phobos to retrieve dead bodies for later repatriation, but the stiff resistance is putting the operation in serious doubt. In *The Weight of the Sunrise*, by Vylar Kaftan, winner of both the Nebula Award and the Sidewise Award for Alternate History, the Incan empire is offered a vaccine, to contain a smallpox out-break, by a Virginian raising funds for the American war against the British. In *One*, by Nancy Kress, a boxer down on his luck gains the ability to read minds and grapples round-after-round with the consequences. In the Great Ship story *Precious Mental*, by Robert Reed, an immortal captain who has been living incognito for hundreds of years is kidnaped to help salvage an ancient derelict spaceship. Finally, in the Poirot-like mystery *Murder on the Aldrin Express*, by Martin L. Shoemaker, murder is suspected in the death of the leader of a Mars expedition when evidence of sabotage is uncovered. These are unabridged readings by Tom Dheere, Jared Doreck, and Nancy Linari ... 16 hours on 14 CDs.
