As technology is being integrated into educational processes, teachers are searching for new ways to enhance student motivation and learning. Through shared experiences and the results of empirical research, educators can ease social networking sites into instructional usage.

The Social Classroom: Integrating Social Network Use in Education collates different viewpoints on how social networking sites can be integrated in education. Highlighting both formal and informal uses of social interaction tools as learning tools, this book will be very useful to all educators, trainers and academic researchers in all aspects of education looking for a theoretical/practical approach to resourceful teaching.
