**Gemology** Cornelius S. Hurlbut, Robert C. Kammerling

This edition has been revised and expanded to reflect recent and varied developments in the highly specialized field of gemology. Among these are: gemstone synthesis; imitation gems; the alteration of gems to improve, add, remove or otherwise change their color, phenomena or clarity; the importance and widespread uses of the microscope to reflect the aforementioned developments; and a number of new gem minerals or new forms of previously described minerals recently discovered or actively marketed for the first time. The chapter on Descriptive Gemology has been divided into two groups: important gemstones (those gem materials most widely used in jewelry and ornamental objects) and less important gemstones (those less commonly encountered).

### From reader reviews:

#### **Rina Reese:**

Have you spare time for the day? What do you do when you have more or little spare time? Sure, you can choose the suitable activity regarding spend your time. Any person spent all their spare time to take a wander, shopping, or went to the actual Mall. How about open as well as read a book entitled Gemology? Maybe it is being best activity for you. You understand beside you can spend your time along with your favorite's book, you can more intelligent than before. Do you agree with the opinion or you have additional opinion?

#### **Ollie Waymire:**

Do you certainly one of people who can't read pleasurable if the sentence chained in the straightway, hold on guys this kind of aren't like that. This Gemology book is readable by means of you who hate the perfect word style. You will find the data here are arrange for enjoyable reading experience without leaving even decrease the knowledge that want to provide to you. The writer of Gemology content conveys the idea easily to understand by many people. The printed and e-book are not different in the written content but it just different in the form of it. So , do you nevertheless thinking Gemology is not loveable to be your top listing reading book?

#### **Mary Infante:**

Exactly why? Because this Gemology is an unordinary book that the inside of the publication waiting for you to snap the item but latter it will shock you with the secret that inside. Reading this book alongside it was fantastic author who write the book in such awesome way makes the content on the inside easier to understand, entertaining means but still convey the meaning completely. So , it is good for you because of not hesitating having this anymore or you going to regret it. This book will give you a lot of rewards than the other book include such as help improving your expertise and your critical thinking approach. So , still want to hold up having that book? If I ended up you I will go to the e-book store hurriedly.

#### **Donna Muniz:**

This Gemology is great book for you because the content that is full of information for you who also always deal with world and possess to make decision every minute. That book reveal it data accurately using great coordinate word or we can say no rambling sentences within it. So if you are read it hurriedly you can have whole info in it. Doesn't mean it only offers you straight forward sentences but challenging core information with beautiful delivering sentences. Having Gemology in your hand like getting the world in your arm, facts in it is not ridiculous just one. We can say that no book that offer you world in ten or fifteen moment right but this publication already do that. So , this is certainly good reading book. Hey Mr. and Mrs. stressful do you still doubt that?
