The purpose of the present work is to give a complete and comprehensive treatise on Catholic Moral Theology, that is, on that branch of sacred learning which treats of the regulation of human conduct in the light of reason and revealed truth. This new work strives to deal with the subject as a systematic and orderly whole, and is based throughout on the principles, teaching and method of St. Thomas Aquinas, while supplementing that great Doctor of the Church from the best modern authorities. Needless to say, there are many questions and problems connected with modern life that did not exist when the great classic works on Moral Theology were written, and to these naturally special attention has been given in the treatment that follows.
